the before

I understand the importance of the investment in your photography. This is why the utmost care is taken when planning your session.

Upon booking and sending your welcome information, we will schedule your pre-session consultation. This is a time for us to discuss the overall look that you have envisioned for your photo shoot and to make it come full circle. From the location down to the last detail in your wardrobe, I will be there to help and guide you as well as answer any and all questions that you may have.

the after

Approximately 10 days after your photo shoot, I will email you to let you know your images are ready for viewing. You will view your images for the first time in a private on-line viewing gallery set to music. Get ready to grab those tissues!

You will place your order through my easy to navigate ordering site.

After that, I will be taking care of the prints and products that you have selected ensuring that they are absolutely perfect.
